

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, AUGUST 5, 1996 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL III

*** THE TEN STANDARD FIRE ORDERS ARE FIRM ***
*** WE DON'T BREAK THEM; WE DON'T BEND THEM ***

CURRENT SITUATION: Fire activity continued in the Eastern Great Basin and Rocky Mountain Areas yesterday. Good progress was made on most large fires in the Northwest, Northern Rockies and Southern California Areas with several meeting containment objectives. Mobilization through NICC remained steady.

Eastern Great Basin Large Fires:

A National Area Command Team (Caplinger) is assigned to the Richfield District, BLM and Fishlake NF.

LEAMINGTON COMPLEX, Richfield District, BLM. A Type I Incident Management Team (Richer) is assigned. This complex consists of multiple fires 3 miles north of Leamington, UT. Powerlines, structures, coal stockpiles and a cement plant are threatened. Smoke is causing visibility problems along Interstate 15 south of Nephi, UT.

HONEY BOY, Cedar City District, BLM. A Type II Incident Management Team (Martin) is assigned. Mining buildings and electronic sites are threatened by this fire burning 5 miles southeast of Milford, UT. Air resources were effective in supporting handcrews and engines. Air operations also provided assistance in isolated, steep rocky areas. Interior islands continued to burn out.

ADELAIDE COMPLEX, Fishlake NF. A Type II Incident Management Team (Shive) is assigned. The fires are burning in oak brush 5 miles south of Kanosh, UT. The complex consists of the ADALAIDE, DOG MOUNTAIN, EAST SAGE, and CHAMPLIN fires. Current threats are to Adelaide Campground, livestock and private land.

CAMP FLOYD, Utah State. This fire is located 4 miles southwest of Fairfield, UT. Strong winds, poor access and steep, rocky terrain continue to pose control problems.

STERLING, Uinta NF. This fire is burning 5 miles south of Spanish Fork, UT. A major powerline that supplies power to Utah and southern California and range allotments are threatened.

TEDDY BEARS, Salt Lake District, BLM. The fire is burning on the west side of the Great Salt Lake. Extremely flashy fuels and shifting winds are hampering suppression efforts.

LYNN, Sawtooth NF. This fire is burning 5 miles north of Lynn, UT. Good progress was made and the fire is in the mop-up stage. No problems are anticipated.

PILOT, Salt Lake District, BLM. This fire is located 36 miles north of Wendover, UT. Handcrews supported by a helicopter made good progress on the fire yesterday. Rangeland, wildlife habitat and structures are threatened. Three fires are in a confinement suppression strategy totalling 3,214 acres.

Rocky Mountain Large Fires:

WEST PASS, Big Horn NF. A Type II Incident Management Team (Hart) is assigned. The fire is burning in heavy spruce and fir approximately 30 miles northwest of Sheridan, WY. No new information was received.

O'PINION COMPLEX, Craig District, BLM. A Type II Incident Management Team (Summerfelt) is assigned. The fires in this complex are burning in pinion/juniper, sagebrush, grass and bitterbrush approximately 60 miles west of Craig, CO. The complex consists of the O'PINION and ROUGH GULCH fires. No acreage was gained on the Rough Gulch fire. The O'Pinion fire made considerable runs due to down drafts from passing thunderstorms. A portion of this fire burning on private land is being managed under a Unified Command with Moffat County Sheriff. Two outbuildings have been destroyed with more threatened. The fire exhibited extreme fire behavior. High value winter range is currently threatened.

PYRAMID, Rawlins District, BLM. This fire is burning in steep, rocky terrain 35 miles southwest of Casper, WY. Crews made good progress despite gusty winds.

ADAM, Craig District, BLM. This fire is burning in mixed sage and piñon approximately 25 miles south of Craig, CO. Late afternoon thunderstorms caused minor activity close to the line.

KNP = Sequoia and Kings NP

Western Basin Large Fires:

DIVISION, Elko District, BLM. A Type II Incident Management Team (Vorce) is assigned. This fire is located 55 miles northeast of Wells, NV. Two people were medivaced to the University of Utah Hospital in Salt Lake City. One person is suffering from dehydration, and the other from high blood pressure. Sixteen abandoned structures and an outbuilding were destroyed around the historic Cleveland, Delano, and Gold Note mines. Increase in fire size is due to remapping.

OXBOW	VAD	OR	300	100	---	100	2	2	2	0	NR	NR

VAD = Vale District, BLM

Southwest Large Fires: Two fires are in a confinement suppression strategy totalling 19,736 acres.

Alaska Large Fires: Twenty-four fires are in a non-suppression status totalling 458,305 acres.

OUTLOOK:

FIRE WEATHER WATCHES ARE POSTED FOR THE EAST SLOPES OF THE ROCKY MOUNTAINS, THE HIGH PLAINS OF MONTANA, SOUTHEAST OREGON, SOUTHERN IDAHO, SOUTHWEST WYOMING, NORTHEAST CALIFORNIA, NORTHERN NEVADA AND THE NORTHWESTERN HALF OF UTAH FOR GUSTY WINDS AND LOW RELATIVE HUMIDITIES.

A strong upper level trough will dominate the weather over the Western United States. A dry cold front will move south into the northern Great Basin bringing increased winds and low relative humidities. A few light showers are possible along the Canadian border. High temperatures will range from the 60's and 70's in the Pacific Northwest and Northern Rockies, to the 80's and 90's from California to Colorado and up to 105 in the desert Southwest. The potential for increased fire activity exists in areas where Fire Weather Watches are posted.
